TRAINING SERVICES

Online Training for all employees based on the requirements and recommended best practices of OSHA, CDC and EPA.

Coronavirus Response Training is instructor led, hands-on training conducted either at your location or our training center. This course is appropriate for service providers involved in cleaning and applying disinfectant, as well as companies that have an internal janitorial crew.

Coronavirus Maintenance Training for employee and contracted regular cleaning service providers.

POLICY PROCEDURES

We can provide a variety of policies ranging from a single response policy to a complete package of policies and procedures that address each step from employee/visitor screening through exposure notifications, remediation and recovery. All policies are in compliance with OSHA requirements and OSHA, CDC and EPA current recommendations.

CLEANING PROTOCOLS

We can provide cleaning and maintenance protocols that have been approved by a Certified Industrial Hygienist.

STAFFING SERVICES FOR PROFESSIONAL CLEANING

We have personnel readily available to support your internal team or your professional janitorial service organizations.
